## Southern Alberta Scout-Guide Jamboree Welcomed Chiefs in Demonstration at Calgary

Coleman Contingents Highly Complimented on Creditable Appearance and Credit is Due Leaders - Chief Scout States Alberta Gathering a Highlight of His World Tour

CHIEF GUIDE

CHIEF SCOUT

The Right Honorable Lord Baden-Powell of Gilwell, G.C.M., K.C.B., The Lady Baden-Powell, G.B.E.

Calgary was the rallying point on Easter Monday for the largest demonstration of young people ever seen in Alberta, when Boy Scouts and Girl Guides from the southern half of the province combined with Calgary boys and girls in an inspiring demonstration of loyalty and affection towards the Chief Scout, Lord Baden-Powell, and the Chief Guide, Lady Powell.

Of the three special trains conveying about 2,600 from southern points, the special from Coleman and district, consisting of 21 coaches, pulled into Calgary with over 900 on board. Other specials were from Raymond and Medicine Hat, the latter bringing in the Indian boys and girls from the Blackfeet Reserve. From Nelson, B.C., District Commissioner Dronsdale and two Scoutmasters with their Scouts, from Cranbrook, Natal and Michel, eastern British Columbia contributed its quota.

From Montana a group of 17, with their Scout flags bearing the Stars and Stripes, gave International color to the march past as about 6,000 passed in review before the saluting point in Victoria Park arena on Monday evening, in the presence of an estimated attendance of 10,000 spectators which crowded every point of vantage.

A similar gathering is being held at Edmonton for the northern Scouts and Guides, and Lord and Lady Powell may take back to England the knowledge that Alberta has made splendid progress, when it is recalled that on their visit in 1923 there were only 800 Scouts and 40 Guides. There were 5,400 Scouts, Guides, Cubs, Rovers and Rangers in Monday's demonstration, of which about 2,500 were from outside points, and Coleman's contingent was one of the largest, under Divisional Commissioner Mrs. R. P. Borden of the Guides and District Commissioner J. W. Gresham of the Scouts. District Chairman C. J. Tompkins was unable to attend.

The Chief Scout commended the members of the rally on their neatness, orderliness and discipline. Though some had travelled 600 miles to see him, he, too, had travelled some thousands of miles, with Lady Baden-Powell, to visit Scouts and Guides in other countries; in fact, in almost every "bloomin' country they had met boys and girls just like those he was addressing, so, though they may only see a few Scouts in their own districts, yet they were not the only rebels on the beach, for their were now thousands everywhere.

He brought a message from the Prince of Wales, whom he described as "a Scout who you may have never seen, who carries a kit like yours, who wears a uniform like yours, who dresses like you, who camps like you and who is at heart one of you."

Lady Baden-Powell, Chief Guide, delivered a message from Princess Mary to Guides, expressing how delighted she was with the organization and its progress.

Presentation to Life Saver

Inspiring indeed was the moment

## King's Jubilee Celebration Monday, May 6

All fraternal organizations are asked to take part in the parade assembling at 1 p.m. at Central School to proceed to the sports ground.

Mayor G. Pattinson,  
Chairman  
Frank H. Graham,  
Secretary.

Miss Ella Emmerson, Miss K. Costick.  
Hillcrest leaders were: Mrs. M. Henderson and Mrs. T. Henderson.

The Scouts were in charge of Scouter T. Llewellyn; Blairmore, Rev. M. A. Harrington; Bellevue, J. Radford; Hillcrest, Albert Marks.

### MANY POINTS REPRESENTED

The marching off of the assembly made a pleasing spectacle, as four abreast, with colors carried at the salute, they passed their Chiefs. First were the Guides led by Provincial Camp Adviser Mrs. F. G. Bird, marshal of the Guides section, followed by the Scouts led by District Commissioner E. V. Spiller. The band of the Elks Own Scout troop played for the march past, while the band of the 13th Divisional Army Service Corps under Bandmaster Harris provided enlivening numbers during the evening.

As the Guides and Scouts swept past the saluting point the colors of many out of town troops were seen for the first time. The following towns were represented: Acton, Arrowwood, Blairmore, Bellevue, Barnwell, Beaver, Brant, Ensign, Brooks, Balfour, Champion, Claresholm, Cluny, Coleman, Connaught, Cardston, Diamond City, Delburne, Drumheller, Gleichen, Hanna, Hartel, High River, Hillcrest, Hillspring, Hussar, Gleewood, Kimball, Lethbridge, Leavitt, Magrath, Medicine Hat, Mountain View, Olds, Orton, Okotoks, Oyen, Nanton, Old Sun Indian School, Picture Butte, Parkland, Raymond, Redcliff, Rockyford, Shaughnessy, Spring Coule, Standard, Stirling, Taber, Taylorville, Three Hills, Tudor, Turner Valley, Vulcan, Waterton Lakes, Woodford, Wayne, Nelson, B.C., Michel-Natal, and Montana groups.

### Provincial Commissioner Pleaseed

Provincial Commissioner J. H. Woods and his provincial council expressed their satisfaction at the conclusion of the Jamboree, and voiced appreciation of the enthusiastic support of the public and various organizations.

### MALE VOICE CHOIR GAVE GOOD PROGRAM

The concert by the male voice choir under Mr. T. S. Beynon on Saturday evening in the Community hall was attended by a much smaller audience than anticipated. The ensemble numbers including "The Soldiers' Chorus," "Comrades in Arms" and other well-known numbers were liberally applauded. Little Miss McCullough sang very sweetly, and other Coleman singers were Ismay Hadley, Alf Phillips and Cherry Smith. Percy Rees and Howell Powell were the Hillcrest soloists. President Blake of the choir thanked the audience for their support, and Conductor Beynon also briefly voiced his appreciation. The choir will compete at Cranbrook musical festival to defend the shield won last year at Blairmore festival.

Mr. T. S. Beynon, L.L.C.M. and L.R.A.M., will be in Coleman Mondays and Fridays from 6 to 10 p.m. for vocal and piano forte training.

Bellevue choir under Mrs. Upton Staine's "Crucifixion" on Good Friday evening, which was a very creditable presentation of this beautiful oratorio. Mr. J. Emmerson of Coleman was one of the soloists.

A business that has faith in itself advertises in The Journal and wins the faith of Coleman people.

### ELKS LODGE MAKE PRESENTATION

Many Elks, their families and friends, met in the Oddfellows' Hall on Thursday, April 25, to hold a social and dance in honor of Mr. Whiteside.

Local Knight Barringham, being chairman, opened the evening with a few remarks. Musical numbers were rendered by J. Pietrasko, violin; Elizabeth and Douglas Moores, violin and piano; F. Beddington, saxophone; T. Beynon accompanist, and Harry Parkinson, saxophone. Songs were given by Mesdames Marland and Ashbridge, Misses Eileen Richards and Ismay Hadley.

The chairman called on Trustee H. W. Clarke to present Bro. Whiteside with an elk's tooth, suitably engraved,

as a token of esteem from the Coleman Elks. Mr. Whiteside expressed his thanks and spoke on the various phases of Elkdom. Mrs. Whiteside was then called upon and presented with a bouquet of flowers by Miss Ismay Hadley. After refreshments were served the remainder of the evening was spent in dancing, music being supplied by Beddington's Orchestra. At the appointed hour the Elks' 11 o'clock service was given by Secretary Brown.

### NEW SUPERINTENDENT AT INTERNATIONAL

J. J. McIntyre, of the Mohawk Mine, Bellevue, has been appointed superintendent at International in succession to Supt. McLeod; and Harry W. Clark, Jr., has been appointed to the position of mine manager at the Mohawk.

L. Lindoe of the International staff has been appointed assistant general manager of International Co., and will move into the house vacated by Mr. Whiteside, while Mr. and Mrs. McIntyre and family will move into the house vacated by Mr. and Mrs. Leed.

Lees spoke on behalf of the employees, and bespoke their good-will to the guests of the evening, with whom he had been associated for over 20 years. He regretted they were leaving Coleman, for relations between the workmen and the officials had always been good, and Mr. Whiteside and Mr. McLeod had been fair to all, no matter what their nationality may have been, consequently they left here with the respect and esteem of the men.

ROVERS, ATTENTION!

All Rovers and any new members interested are asked to be at the Jamboree on Tuesday, May 7, at 7:30 p.m. for the purpose of re-organizing.

### ST. PAUL'S UNITED CHURCH

Sunday, May 5, morning service 11 a.m., Rev. Roy C. Taylor in charge, and the girls' choir will sing. Sunday school 12:15 p.m.

Thanksgiving service at 7:00 p.m. commemorating the 25th anniversary of King George V's reign. Appropriate music. Strangers and visitors made welcome. You will be helped.

On many occasions he had been on committees to discuss controversial matters with the management, and though not always getting what they asked for, they had been treated fairly and respect had always been given their representations.

Major Pattinson thanked the committee for inviting him to speak.

The duties of a mayor necessitated rambling around looking into various matters and doing everything the people required him to do, though it was not always possible. Thirty years ago

he came to Frank, and he first met Mr. McLeod there when the latter was

## International Co. Staff and Employees Give Striking Send-Off to General Manager Whiteside and Superintendent McLeod at Smoking Concert

Most Unique Gathering of Its Kind in Coleman, Mine Workers Express Goodwill to Departing Officials in Handsome Presentations

Employees of International Coal & Coke Co. paid striking tribute of good-will to retiring General Manager Whiteside, and Superintendent McLeod in a smoker and presentation on Thursday evening, April 18, in the Community hall.

J. Emmerson, secretary of the company whose business relationship with Mr. Whiteside dates back almost 30 years, first at Camrose, later at Frank and Lille, and since 1906 in Coleman, efficiently performed the duties of chairman, and kept the program swinging merrily along, while others of the staff, acting as stewards, saw that all were well supplied with refreshments.

H. T. Hallwell, president of the Board of Trade, referred to the splendid (Continued on Page 4)

## Builders And Wreckers

Glancing through a little trade magazine the other day the writer came across a short bit of verse entitled "Wreckers", which, in these days and times, is worthy of still wider circulation. So we reproduce it:

I watched them tearing a building down,  
A gang of men in a busy town.  
With a ho-he-ho and a lusty yell,  
They swing a beam and the side wall fell.  
  
I asked the foreman, "Are these men skilled?  
And the foreman said, "They had to build?"  
He gave a laugh and said, "They indeed!"  
Just common labor is all I need.  
  
I can easily wreck in a day or two  
What builders have taken a year to do."  
  
I thought to myself as I went my way,  
Which of these roles have I tried to play?  
Am I a builder who works with care,  
Measuring out by the yard and square?  
Am I a shrewd man destined to a self-made plan,  
Patiently doing it I can?"  
Or am I a wrecker, who walks the town,  
Content with the labor of tearing down?

All over this world of ours there are men and women earnestly striving to build—men in governments, in churches, in education, in finance, in industry, in business; statesmen around the League of Nations council table, sitting at international conferences, or engaged in diplomatic negotiations. They are trying to build anew on the wrecks of war, the debris of political, economic and social conditions thrown into chaos by the Great War and its bitter aftermath. They are striving to save civilization, and make it a finer thing than anything hitherto known.

But, during these times of temporary peace, joint, well-weathered have developed in the world, because abnormal conditions exist and many people are in difficulties, the "wreckers" have become bold and walk the town blantly engaged in the easiest of all tasks—that of tearing down. Men and women who never constructed anything, who lack both the ability and the incentive to construct anything, who are given to crass self-interest, the efforts of the builders, putting unworthy motives in them, seeking to wreck anything and everything of a constructive nature that is attempted.

Even the best and most patient of people are inclined to be critical and become fault-finders. In fact, how often are people now heard to speak in praise of anything, of any institution, or of any effort that is being put forth? Rather, is it not the general attitude to denounce and attack blind?

The popular thing to-day seems to be to destroy, to wreck. In some countries they are deliberately trying to destroy religion and so to revert to the dark ages; in these and other countries the attempt is being made to snuff out the light of liberties won through the suffering and bloodshed of past generations. The wreckers would in a day tear down the constructive work of centuries.

There are those, of course, who still hold fast to the faith that is in them; who still believe in liberty as the sacred right of the individual citizen; who hold true to democratic forms of government and trust in the people and hatred of dictatorial autocracies.

The builder or wrecker, which class has brought mankind to its present civilization? Which class lifted mankind from the savagery stage? Which group has developed modern medicine, which is responsible for modern inventions, which built our transportation and communication systems, our modern towns and cities, which brought into the higher standard of life in the twentieth century? And was it not the wreckers who were responsible for the Great War and are responsible for the whole train of evils which have followed?

The builders are still building in the face of enormous difficulties and the opposition of the wreckers; the builders are striving to save civilization which the wreckers would destroy through revolution and bloodshed in order that out of civilization's crash they may reap gaudish benefits.

Each of us may want to take stock of ourselves, study our present habits of thinking, examine our actions, and when we do, take a measure of our lives, and see whether we are builders "patiently doing the best we can," or merely wreckers "content with the labor of tearing down."

## To Keep Informed

A representative of the Dominion government will visit Denmark soon to study operation of a peat development plant using a formula for which representatives of a British company have been seeking a subsidy for development here. This step is taken in order to keep fully informed of any new fuel development that might prove economically useful to Canada.

## Funds For Memorial

More than 29 countries are now enlisted in the campaign to collect funds for a Florence Nightingale memorial. It is to take the form of endowed post-graduate courses of training in nursing, to be conducted in London. The League of Red Cross Societies have financed such courses for several years, but no longer has funds for such a purpose.

## Indian Did Not Forget

Sends Gift To Lawyer Who Saved His Son In Trial

Sixteen months ago a Nanaimo jury acquitted Andrew Moses, slender Fort Albert Indian, of a charge of attempted murder—the charge laid after an Indian from the west coast of Vancouver Island, who had allegedly stolen Andrew's girl-wife, was stabbed through the heart and saved from death by a young Victoria surgeon.

For two days the jury listened to how Andrew had followed his pretty 18-year-old wife whom he had married according to Indian custom.

When he found her there was a fight and Charlie Sam was stabbed in the heart. Sam's life was in doubt for more than a month but he recovered eventually and Moses went on trial.

When the jury returned its verdict Chief Moses, Andrew's father, broke a two-day court room silence. "I don't forget you," he said to R. L. Maitland, K.C., his son's counsel. "I don't forget you save Andrew's life. Andrew's good boy. You won't forget me."

Recently Mr. Maitland received two eight-foot intricately carved totem poles. What each figure and character denotes he will probably never fully know, but whenever he looks at them he will know that the old chief did not forget.

## BROKE HER LEG AGAINST A STAIR

## Whilst Hampered by Rhumatism

"Two years ago," writes a woman, "I was suffering with rheumatism in my legs, and when walking upstairs one day just kicked my right foot against the stairs, and broke my leg just below the knee. I was in hospital four months, and when I came out someone advised me to try Kruschen Socks. I did so, and now I have no trace of rheumatism. I would not be without my daily dose of Kruschen Socks. I take every morning—half a teaspoonful in warm water."—Mrs. P. B.

The six salts in Kruschen stimulate the liver and kidneys to healthy regeneration and help to get rid of the excess uric acid which is the cause of rheumatic pains. When poisonous uric acid goes with its deposits of needle-pointed crystals, there's no doubt about those aches and pains going to go!

## Bank Of Canada

Will Pay Its First Dividend To Shareholders Next July

When the Bank of Canada pays its first dividend next July the amount going to each shareholder will be based upon the time the first share instalment was paid, it was learned at Ottawa.

Applicants for shares were required to send their orders for \$2.50 for each share requested, representing one-quarter of the cost per share.

Dividends will be reckoned, therefore, on \$12.50 per share from September 1, 1934, to January 3, 1935, and on the full purchase price of \$50.00 per share from January 2 to the date of declaration, probably July 2.

The actual rate of dividend will not be known until it is declared by the board of directors, but under section 31 of the Bank of Canada Act it cannot exceed 4 1/4 per cent a year. Any excess profits over the maximum dividend requirements go to the rest fund and the consolidated revenue fund of Canada.

## Want Branch Lines

Pea Is Made For Completion Of Two Branch Lines In Northern Saskatchewan

A pea line for completion of two branch lines of the Canadian National Railways in northern Saskatchewan was made before the select standing committee on railways by C. R. McIntosh (Lib., North Battleford). Mr. McIntosh was supported in his request by F. G. Davies (Cons., Athabasca).

At present a branch line runs north from North Battleford, Sask., to St. Walberg, a distance of 90 miles, but the remaining 100 miles to Beaver River Crossing is unfinished. This line was projected originally to join North Battleford with Edmonton. Mr. McIntosh urged the road be completed, and estimated the cost to be not more than \$350,000.

The other line was from North Battleford to Edmonton, via Spruce Lake.

A baby crying for an hour uses enough potential energy to climb to the top of the Washington Monument.

## Little Journeys In Science

## THE SPECTROSCOPE

(By Gordon H. Guest, M.A.)

Scientists have said that the earth and even our winter sky can be observed by the telescope, including the most distant, are composed of the same substances. Of course the proportions are different, but the substances are the same.

A glass prism in the hands of the great scientist Sir Isaac Newton in 1672 commenced the train of thought that led to this discovery. Newton discovered that the prism split up ordinary sunlight into the various colors of which it is composed. The prism was the beginning of a very powerful instrument of science, namely the spectroscope, which was invented about a hundred years later. It is this instrument that tells us that all the suns and planets are composed of the same materials in different proportions.

The spectroscope sees more than our eyes enable us to see. Man can only observe those substances that give off vibrations to which our eyes are sensitive. The spectroscope is constructed to see all the substances that emit vibrations. We cannot see colorless gases, but the spectroscope can. In fact this instrument can see gases so plainly that it can tell one from another. There are even even substances and very kinds of gas which emit out vibrations, each having a rate of vibration of its own. Science has determined the rates of vibration of the various solids and gases of which the suns and planets are composed. When the same vibrations come from other planets and suns scientists know that they are composed of the same materials that are in the earth.

## Research Council

Work Carried On By This Body Is Worth Millions To The Farmers

With their work estimated at "tens of millions of dollars" in value to farmers, associate committees of the National Research Council ended their seventh annual convention held at Winnipeg.

Dr. H. M. Tory, president of the council, declared in his winding address that the group had as much of Canada's future in its hands as any other body of Canadian citizens. The work was worth millions to farmers, he declared.

Farewell was said to Dr. O. S. Aamodt, University of Alberta, who will shortly join the staff of the University of Wisconsin. Regretting Dr. Aamodt's departure, the council members extended him best wishes in his new work. Tribute to Dr. Tory's work was made by Dr. W. C. Murray, president of the University of Saskatchewan.

Sub-committees were re-established and their chairmen named.

## Motor Car Industry

Demand For Cars In United States Auto Industry In High Gear

The No. 1 industrial colossus of the United States, the motor car industry, is in high gear. In haul-away trucks, in freight cars and driven away processions the product of the assembly lines is moving from factory, dealer and on to consumer in heavier volume than at any time during the last five years.

Gaining momentum steadily under the impetus of a swelling consumer demand, the industry has assembled more than 1,313,000 passenger cars and trucks since Jan. 1. During 16 weeks of 1933 the industry produced 1,000 units as were manufactured in all of 1932. Output for that year, lowest point in the depression, was 1,431,494 cars and trucks.

Does Not Want Freedoms

Rev. L. D. Stueland has for a constant companion on his motor trips about the Wind River Indian reservation in Wyoming a domesticated wild finch. Seven years ago he captured the bird near Castle Rock, Colo., after it had broken a wing. It soon became a household pet and, although free to leave at any time, returns to its cage each night.

## Japan's New Ships

## Merchant Marine Fleet Finest Naval Reserve In World

The Japanese are leaving no stones unturned in their expansion to major world power. Their new merchant marine fleet, the finest naval reserve in the world, is speedily dominating Pacific Ocean shipping. One of six new luxury liners being built by Japan has entered service; a fleet of 50 freighters which travel at speed of more than 20 miles per hour, span Tokyo to San Francisco in 11 days with rich cargoes of silk. This constitutes a tremendous saving in time and dollars.

# Disastrous Earthquake Takes Heavy Toll Of Life In Island Of Formosa

Takoku, Formosa.—Recurring aftershocks, with a particularly sharp tremor at 3 a.m. (2 p.m., EST, Sunday) increased the terror of survivors of a disastrous earthquake which took nearly 3,000 lives.

Latest officials estimates were: 2,711 killed; 11,386 injured; 250,000 homeless; 16,493 houses destroyed and 20,000 more damaged. Property damage was tremendous.

Many entire families were completely wiped out. Numerous villages were virtually razed to the ground.

Officials feared the known death toll would increase when shattered communication lines are restored. Although missionaries live on the islands, no foreigners were believed among the victims.

Afraid to sleep, the frightened residents in the stricken zone huddled all night without shelter in groups around feeble candles and oil lamps.

Because of the spread of alarming rumors concerning imaginary tidal waves and aborigine uprisings, police arrested several persons.

Sunday's quake was one of the Orient's worst modern catastrophes.

Two gigantic shocks rocked a populous section of the Japanese-owned island at dawn. Trapped in their collapsing flimsy houses, the inhabitants were helpless.

Most of the killed and maimed were of Chinese racial origin, as the beautiful island lies off the southeast coast of China. It was wrecked from China by Japan in the war of 1895.

Reinforcements of police and soldiers were hurried to the stricken zone to prevent pillaging and looting, while the authorities inaugurated a relief and rehabilitation program.

Roads were cluttered with long lines of the stricken inhabitants, bearing the injured to medical assistance on stretchers and crude litters. A driving rain added to the scene of desolation.

Although the entire island was shaken, the biggest toll was confined to an area 40 miles in diameter north of the city of Taichu, especially in the Toyohara district, 15 miles north of Taichu.

Among the worst stricken towns were Naho, where 581 died, including the "head-man" (corresponding to mayor); Kamoku, with 445 killed; Taiko, where fires added to the destruction; Byoritou, which saw a majority of its houses leveled; Kori, Chikuman and Taikanku.

The seismological observatory announced the centre of the shock was near Toyohara, 10 kilometres (nearly seven miles) below the surface. This shallowness, unusual in earthquakes, accounted for the heavy damage to buildings.

Formosa's last disastrous earthquake, in March, 1906, killed 1,300.

No Americans or Europeans were believed affected as Formosa's few American residents dwell in Taihoku or elsewhere outside of the disaster zone. All foreign missionaries, including Canadians and British, also are located in unaffected cities.

## Riot Of B.C. Miners

### Fierce Battle When Workers Seek Recognition Of Union

Corbin, B.C.—Riot flared in the little Crow's Nest mining camp of Corbin, the first disorder of a three-months' old strike, the workers seeking recognition of their union—the Mine Workers' Union of Canada.

After a fierce battle, British Columbia police counted 16 casualties, including five officers seriously injured, six colliery workers hurt and 25 rioters nursing bruises and cuts suffered when police charged with drawn batons. None of the strikers was seriously injured. Two of the union leaders, J. Falkner, the president, and John Press, the secretary, were held by police, pending investigation of the battle. Several other strikers were in custody, but police refused to divulge the number under arrest.

The camp was quiet at night as two-score police officers patrolled the streets and guarded the properties of the Corbin Collieries Company.

## Search For Water

### Geological Survey Will Be Made This Summer

Ottawa.—Geologists working in Saskatchewan this summer will search for water as well as gold, Hon. Wesley Gordon, minister of mines, said here.

"I have in mind a search for water in some of the dried-out areas," he said. "Probably members of the Geological Survey are aware that before I became minister, geological surveys carried on water work was very haphazard in that regard, particularly for the town of Moose Jaw and the city of Regina. I propose that some of these parties shall press that work in some parts of Saskatchewan."

## Cancer Fund

### Finance Minister Recommends Donations Of \$10,000

Ottawa.—Minister of Finance E. N. Rhodes announced in the House of Commons that the government will recommend donation of \$10,000 to the King George V. silver jubilee cancer fund for Canada.

The fund was initiated by the Countess of Bessborough, wife of the governor-general, as a special thank-offering to the king on the occasion of the 25th anniversary of his accession to the throne. Mr. Rhodes made his announcement just before the house rose for the Easter recess.

## Progressing Favorably

Edmonton.—Father Charest, of Grouard, Alta., flown into Edmonton after having one hand crushed beneath a snowmobile, was reported by hospital attachés here to be progressing favorably. He may be in the hospital for two weeks. Four fingers were amputated.

# Nazi Circles Express Much Surprise Over The Decision At Geneva

Berlin.—This capital was the centre of a series of startling rumors following condemnation of Germany by the League of Nations council for violation of the re-armament clauses of the Treaty of Versailles.

General opinion was there would be a brusque retaliatory gesture by Chancellor Adolf Hitler and the form it would take was the subject of various conjectures. It was vaguely rumored, although in each case without confirmation, that:

Chancellor Hitler would now denounce the whole of the Versailles Treaty.

Germany would break off diplomatic relations with Britain, France and Italy, which framed the resolution of condemnation voted by the League council.

Germany would admit no further restrictions on its sovereignty and would disregard the demilitarized left bank of the Rhine.

A more plausible report was that der führer would call for a nationwide referendum to show the world the German people were behind him in his international policies.

## Price Spread Report

### More State Intervention In Business Is Deemed Necessary

Ottawa.—Creation of a federal trade and industry commission with wide powers of law enforcement, to advise over business and suppression of unfair, unethical commercial practices, was the main recommendation of the price spreads commission.

It would be a commission of five men, operating directly under the prime minister in somewhat the same way as the Dominion board of railway commissioners.

"We have been forced by the evidence," the report stated, "to conclude the situation calls for a frank recognition of the necessity of more state intervention in business."

The trade commission would be empowered to:

Enforce the Combines Act to retain and restore competition.

Regulate industrial monopolies where open competition cannot or should not be enforced. An industry would be declared monopolistic, exempted from the operation of the Combines Act and automatically come within the supervision of the trade commission.

Sanction and supervise agreements between industrial units modifying cut-throat competition and generally regulate the industry.

Prohibit unfair competitive practices.

Supervise or co-operate in administering laws relating to merchandising and business practice for which no agency exists.

Administer laws to protect consumers.

Regulate security issues for the protection of the investor.

Co-operate with chambers of commerce and boards of trade in development of commercial arbitration or refereeing of business disputes.

Co-operate with other government agencies, federal, provincial or municipal, in solution of trade problems.

## Oppose Larger German Navy

### Say Britain Will Not Sanction Any Increase In Sea Force

Montreal.—A proposed rearrangement of dining car runs between Montreal and Winnipeg will not have the effect of transferring the headquarters of the dining car department from Montreal to Winnipeg but result in the longer period of layover being at the latter city, W. W. Swindon, general superintendent of sleeping and dining service, Canadian National Railways stated, here.

Mr. Swindon was making a reply to Ald. David Rochon, pro-mayor of Montreal, who stated at a public meeting "Mayor Camillien Houde will fight to the last ditch any attempt by the C.N.R. to remove dining car headquarters on the two trans-continental trains from Montreal to Winnipeg."

## Peat For Fuel

Ottawa.—The Dominion government is looking into a new process of preparing peat for fuel. Hon. W. A. Gordon, minister of mines, told the House of Commons. He said reports about the progress of negotiations with a company interested in the process were not accurate.

## Ban Slot Machines

Edmonton.—The ban on slot machines in this province will take effect July 1 next, when similar legislation also will become operative in Saskatchewan, the legislature in committee of the whole decided.

## SETS REMARKABLE SOLO FLIGHT RECORD

Here is Mr. H. L. Brook, British airman, after he had landed at Croydon Aerodrome from Australia. He completed the flight from Darwin to Lympne in 7 days, 19 hours, 15 minutes, thus breaking the record for the solo flight from Australia, held by Mr. C. J. Melrose, by some thirteen hours.

# Problems Of Primary Producers To Be Discussed At Conference In London

## Flight To Honolulu

### Clipper Plane "Pioneer" Makes Trip Under 18 Hours

Honolulu.—The big clipper plane "Pioneer" alighted on Pearl harbor here, after a 2,400-mile flight from Alameda, Calif.

Gilding gracefully down in a wide circle, the clipper split the waters of Pearl harbor exactly three minutes before her scheduled landing time. The ship had spent 52 minutes circling over the city and adjacent cane fields.

The clipper travelled the 2,400 miles in 17 hours and 45 minutes, cutting seven hours off the standing record for the distance. At times it hit an 180 mile-an-hour clip.

The clipper's time was just seven hours better than the previous mark in the six other successful flights across the Pacific from California. A navy mass flight of six planes made the trip in 24 hours and 45 minutes, Jan. 11, 1934.

Its crew of six flashed back frequent messages of progress.

References to an ocean sunset, moonlight, and the beauties of soaring above cloud banks that obscured the water were made in the reports which otherwise were as routine as the constant craft of the graceful four-motored craft.

## Investigate Auto Industry

### Tariff Board To Visit Plants Where Motor Cars Are Produced

Ottawa.—The tariff board will begin the investigation of the automobile industry by visits to the plants which produce motor cars and parts. These visits will likely be made this week, it was learned.

The bearing of evidence will be given in Calgary when the board is there in connection with the gasoline inquiry. The board had planned going to Calgary early in May but requests came from those submitting evidence that they have the hearing postponed. The board will comply with this request.

While in the west the board will go to Vancouver where hearings will be conducted in connection with both inquiries. Afterwards the board will return to Ottawa and conclude its hearings in this city.

## Amnesty For Prisoners

### System Will Go Into Effect For King's Jubilee

Ottawa.—Minister of Justice Hugh Guthrie told the House of Commons a system of "amnesty" for prisoners will go into effect for the king's jubilee.

Every prisoner serving six months or more will be affected. A remission of one month will be made for each year of sentence, the minister said. That would reduce a six-months' sentence by two weeks.

The last general amnesty in Canada marked the diamond jubilee of confederation in 1927.

Vancouver.—Belief considerable progress might be made in conferences in London in regard to the problems of the New Zealand primary producer in the British market was expressed here by Prime Minister G. W. Forbes of the southern dominion, in an informal talk to a Canadian Club luncheon.

The prime minister arrived Friday on the M.S. *Aorangi* and left for the east in the afternoon. He will make an overnight stop at Banff and spend more than a day in Ottawa. He regretted the time remaining before the opening of the king's jubilee celebrations did not allow further stopovers in Canada or more time for discussion of mutual problems. He will sail from New York on the *Aquitania* April 27.

"I have always found the British ministers very fair," said Mr. Forbes in his talk, "and when dealing with the dominions they always put their cards on the table."

New Zealand, as a primary producer of foodstuffs, was vitally concerned with markets. At the same time the British market tended to become glutted with foodstuffs from over the world. Post-Jubilee conversations would deal with this problem.

New Zealand had experienced a marked improvement in regard to trade. Even though prices for primary products were still low, costs had been cut and the farmers had been able to carry on.

## No Wheat Shortage In U.S.

### Estimated Production This Year Placed At 625,000,000 Bushels

Indianapolis.—The United States need not fear of a great wheat shortage resulting from drought and dust storms, said G. E. Farrell, director of the division of grains of the agricultural adjustment administration, here.

Farrell, who conducted the first of a series of conferences to be held throughout the middle west and west on plans for holding a referendum on continuing the wheat control program, pointed out that the board will have to comply with this request.

While in the west the board will go to Vancouver where hearings will be conducted in connection with both inquiries. Afterwards the board will return to Ottawa and conclude its hearings in this city.

## Lake Navigation Opens

### First Cargo Of Grain Vessels Clear From Fort William

Fort William.—Threading their way through a passage in the ice field, five vessels cleared from the harbor, loaded with grain and headed "down-lake" with the first cargoes of the 1935 season. Vessels were the *Stadacona*, *Dononacca*, *Grandy*, *Winnipeg* and *Saskatoon*, owned by the Canada Steamship Lines.

*Sault Ste. Marie*, Ont.—Thirteen days ahead of last year, the steamship *L. E. Block* opened navigation at this port, upbound for Marquette to load ore.

# Construction Program Has Been Deferred Until Parliament Reassembles

Ottawa.—The House of Commons started a five weeks' Easter recess with the \$33,000,000-construction bill left high and dry. After a long day of verbal battles several appropriations were decided when the 6 o'clock adjournment hour rolled around and will be reconsidered May 20 when parliament reassembles.

The Liberals were charged by Minister of Railways R. J. Manion with blocking the construction bill but they shouted angry denials. The chief stumbling block was a vote of \$1,000,000 for a tunnel between the Toronto mainland and a summer resort on Hanlan's Island in the harbour.

Liberals urged the vote be changed and enlarged, if necessary, to start a slum clearance scheme in Toronto, claiming there was no necessity for the harbor tunnel. Conservatives argued the *Dominion* was obligated by a 1913 agreement to connect the mainland and the island with a bridge or tunnel and painted in glowing terms the development of a sea-port base in the harbor which would

become the aerial hub of the continent.

Indication the government intended to do something to relieve slum conditions was given by Minister of Public Works Hugh Stewart.

The Toronto vote should not be shifted to slum clearing, he said, but he advised the house to wait for the legislation to be introduced after the recess dealing with the recommendations of the housing committee.

When the members packed their bags and dashed for their trains, the following appropriations had passed through committee stage: Railway grade separation fund, \$1,000,000; geological surveys, \$1,000,000; \$3,500,000; Quebec harbor improvements, \$1,125,000; canals, \$750,000 and western water conservation works, \$500,000.

The appropriation of \$15,000,000 to guarantee railway equipment securities of the Canadian National and Canadian Pacific Railway had not been reached.

## NOTES AND COMMENTS

A pleasant contrast to political controversy in Calgary this week was the address of Lord Baden-Powell to Boy Scouts of Alberta, to develop character, to be builders. St. George, the patron saint of Scouts, fought and overcame the dragon, and he urged them that no matter how difficult or dangerous the job is, go to it, tackle it and win through.

Mayor Davison in according Lord and Lady Baden-Powell a civic reception, stated: "As the man who conceived the Boy Scout movement, his lordship has made a contribution to the youth of many lands that in my opinion stamps him as one of the outstanding characters of this day and generation."

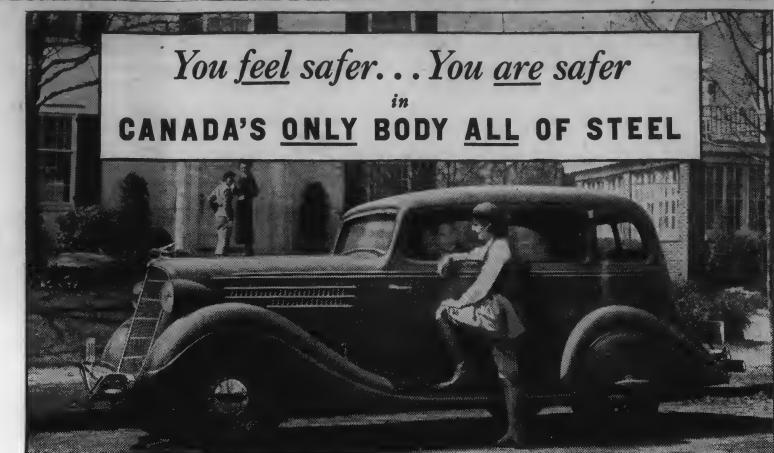

No finer movement for inculcating high ideals and the spirit of helping one another exists than that of the Boy Scouts, and them to protect the minority. to sign it, if they want radio interference. Never yet did you see a paid caption without interference. Coleman's local officers deserve the support of parents. Many agitators advocate co-operation. Since this is the Electrical Age, nearly all appliances being bought for the convenience of the housewife are machines that will operate from the electric light socket. Most of them are causing radio interference. Why not get together and have a march from Alberta into British Columbia is inviting a clash with the forces of law and order. It is a display of attempted mob rule which can only be with those who have electrically combed by force. Public sewing machines and vacuums opinion, even among sane labor and who seem to save all their men, denounces this out-worn sewing for the evenings and barbaric method of trying to Sunday.

To assemble two or three hundred strike sympathizers to march from Alberta into British Columbia is inviting a clash with the forces of law and order. It is a display of attempted mob rule which can only be with those who have electrically combed by force. Public sewing machines and vacuums known in this district. Placing women and children in the front line of strikers' assaults makes people wonder what type of mentality is responsible for such conduct.

Though 78 years old, the Chief Scout still looks on Scouting as a "jolly good game," and in an interview to press men urged that older people encourage the boys and girls to attain the ideals for which the organization stands. His voice is firm, his hearing acute, and his kindly human interest in everything about him and the vigor with which he leads the cheering of thousands of boys and girls cannot but help make them feel he is indeed "The Chief."

An interesting incident of his Calgary visit was his meeting veterans of the Boer War. To every man he had a few kindly words, enquiring to which unit he belonged, and as he left, he expressed his pleasure in meeting comrades of the veldt of over 30 years ago. Three lusty cheers and a "tiger" warmed his heart, and with merry twinkle he bade them good-bye. As promoter of international good will among the youth of the world, he stands without a peer.

Strike troubles at Corbin develop into a clash between hot-headed strikers and the police. Nothing is won for the strikers by violent methods to which they are incited by a paid agitator who fattens on their misfortune, for remedies cannot be achieved through increasing antagonism. Defiance of law and order will be strongly denounced by people who believe in democratic rule instead of mob law and class rule. Policemen have no liking for the ugly work of using force against

## International Staff and Employees

(Continued from Page 1) good spirit in evidence at the gathering, remarking it was an inspiration to see such a unanimous tribute of goodwill towards the departing officials.

Workers were to be rightly considered as co-partners in industry, and labor was entitled to a voice in any industry it was engaged in. He tested the plan under which Consolidated Mining and Smelting Co. management confers with committees of workmen on matters affecting their mutual interests, and to General Manager Blaylock's recent statement that since this policy had been adopted there had been no difficulties since a big strike of 15 years ago which almost caused a tie-up of their plant. Under the much discussed "new deal" it might be anticipated that labor would be given a greater voice whereby cause for strife would be minimized. He expressed the sentiment that should the retiring officials ever visit Coleman, they would find just as hearty a reception as the gathering being held in their honor.

Mr. George Kellock was also to have spoken, but was prevented from attending owing to business engagements.

The honor of giving the presentation address fell to Harry W. Clark, who was as follows:

"I have been asked tonight, principally, I think, because I have served the company in a continuous capacity longer than anyone else here — although I fancy Mr. Emerson runs me a close second — to perform a pleasant task; pleasant in being able to show our esteem and respect for you both, and unpleasant in knowing that it means the severance of your connection with the company you have so long and honorably served."

"You, sir, in your capacity as general manager, have seen the company's growth from infancy to its present position as a leader in the mining industry of western Canada, and we feel sure that a large measure of its success can be attributed to your wise guidance in times of stress."

"In your dealings with your employees you have at all times been fair, and I think that one of the greatest compliments that could be paid you was that paid the other day when a

minor said: 'I am sorry Mr. Whiteside is leaving, he has always been a gentleman to us.'

"And to you, Mr. McLeod, we say that your geniality and helpfulness during your ten-year term of office as superintendent, and your many activities in the interests of the community, have brought to all of us a realization of your many sterling qualities, and we regret your departure from among us; but it is our sincere hope that your new position may be just a short stepping-stone to greater responsibilities and successes in the future."

"In addressing these remarks to you gentlemen, we do not forget Mrs. Whiteside, Adela, and Mrs. McLeod; they have been always helpful in the community and will be much missed."

"At this point I am sure it would not be amiss for me to say that I know you will all wish me to tell our new chief, Mr. G. Kellock, that we will do our best to help him in his arduous task; and I am convinced he will receive the same loyalty and devotion his predecessor had. Mr. Kellock is no stranger to us. He left the International just before I went there in 1908, and came back in 1909, remaining until he went to McGillivray.

"And now, gentlemen, I come to the pleasant part of my duty, that of presenting to you, on behalf of the officials and employees of the International Coal & Coke Company Limited, these tokens of our esteem and regard for both of you. In making these presentations I would point out that, although you may have received tokens of regard from other friends and acquaintances, our gift comes from men with whom you have been associated, not casually, but daily, monthly and yearly, and I say on behalf of all of us: 'May God bless you and yours!'

Mr. Whiteside, replying to the address, stated he had during the past few days been bidding good-bye to old friends in the coal industry, and now came to the point where he must bid good-bye to the man he had worked amongst. He was not in good form to adequately express his feelings, therefore it was difficult to state what he would like to.

Possibly some of his virtues had been exaggerated, and his faults glossed over. Much he would like to have done had been left undone. The presentation would keep in mind many happy memories and associations. In forty years in the coal industry he had experienced a wonderful measure of luck. There is such a thing as luck, but every man must be ready to take advantage of it. Early in life he had learned to work hard and forget worry, and a man has no cause or time for worry if he does his best to meet his problems. He may have fallen short of the ideal set, but that probably was a common experience.

Supt. McLeod Replies

Replies with pride to the fact that Supt. McLeod and other officials of the company had gone forward to more responsible positions. Concerning his own family affairs, it was his wife's first move since they were married, and his daughter's closest friends were those with whom she had grown into young womanhood. They, too, would keenly feel the breaking away from home associations and old friends, and doubtless would embrace the opportunity as frequently as possible to re-visit old scenes.

As to whether degree of success he may have had as manager of International Coal & Coke Co., he could express himself freely that it was owing to the support given to him by the workmen. He had surrounded himself with capable officials, but not matter how capable, to operate successfully support of the rank and file must be forthcoming. Every man pulling together would succeed where genius would often fail. He had seen men who had been considered strong, mentally, go down, while others, possibly regarded as weaklings, had succeeded through the support accorded them by men with whom they worked. To the old-timers in the company's service he would always look back with pleasant memories, for they were a bunch of sensible men who had taken some conceit in the company and the town; in fact had laid the foundation of the present Coleman, hanging on during the hard years and, he trusted, reaping some of the benefits accruing from steadier employment.

Referring to McGillivray Co., relations between them had always been amicable, and he would bespeak for officials who followed the same sympathetic support accorded to him. Coleman had great possibilities, bringing greater responsibilities, leaving greater responsibilities when he first entered in the Crow's Nest field.

Their greatest difficulty had been the development of markets, and doubtless this would continue a problem. Mining was a difficult industry, but finding

you to decide. This year you want perhaps more than ever, the "most-for-the-money" car. We believe that in Dodge we have the biggest dollar-for-dollar value on the market. Come in and let us show it to you. We invite you to take a ride.

### LOCAL AND GENERAL

A number of friends of Mr. and Mrs. J. A. McLeod met at the home of Mr. and Mrs. A. W. Morrison on Saturday, April 20 when a presentation was made to the former prior to their leaving for Cadomin, Alta. Mr. Morrison voiced the goodwill of those present in making the presentation of a silver platter and entree dish. Mr. and Mrs. McLeod and family left on Sunday, April 28, and on Saturday evening Mr. and Mrs. Cuthbert Devine held a party in their honor. Good wishes of a host of friends follow them to Cadomin, after ten years residence in Coleman.

### SAYS THAT SOMEBODY SUFFERS

Referring to the articles in the Canadian Grocer covering evidence given before the Price Spreads and Mass Buying Commission at Ottawa, Fred V. Laughton, in the retail business in Parkhill, Ont., writes: "For myself when I observe the annual statements of the chains, note their cost of doing business and profits earned, also note their retail prices displayed in stores or newspapers, I know that they are either chiselling the manufacturer, the agent or labor."

## WORLD HAPPENINGS BRIEFLY TOLD

Two hundred varieties of slippers are being made in a new factory at Northampton, England, largely for the American trade.

Quarters usually well informed, said a national plebiscite is planned this spring or early summer on Germany's re-armament and possible return to the League of Nations.

France's imperial economic conference, the first in the nation's history, closed a four month session with a "fifteen-year plan" as its major achievement.

A meeting of all Nazi department heads in the famed "brown house" at Munich, Germany, has decided no quarter henceforth shall be shown the Nazi church opposition, it was disclosed.

An invitation to Canadian Boy Scouts to attend a two weeks' jamboree by Polish Scouts this summer on the 25th anniversary of scouting in that country has been received by the governor-general, as chief scout for Canada.

Thirteen men implicated in the recent Venizelos revolt, including M. Pitsokakis, godson of Former Premier Eleutherios Venizelos, were sentenced to prison terms ranging from two to 20 years. Nine were acquitted. Pitsokakis got 20 years.

Great Britain is quietly mobilizing her civilian forces for defence against gas and bombing attacks; it was disclosed when Colonel E. M. Cowell, director of the British Red Cross in Surrey, appealed for 1,000 men and women for volunteer first aid nursing work at Croydon airport.

More than 160 fighting craft will take part in the royal jubilee naval review off Spithead, July 16. The flags of 12 admirals will be flown and the assembly will constitute the biggest peace-time demonstration of naval strength since the "test mobilization" in the same waters in July, 1914.

### Indians Win Appeal

Judgment For \$18,309 Awarded

Northern Saskatchewan Band

Judgment for \$18,309 and costs was awarded members of the Mistawasis Indian band near Lethbridge, against the federal department of Indian affairs by Hon. Justice F. E. Angers in eschequer court according to word received at Prince Albert.

Action for \$20,309 was based on the premises funds of the Indians had been improperly used by the department, contrary to the treaty of 1876. Richard Mulcaster, K.C., assisted by W. G. Elder, Prince Albert, appeared for the Indians at the trial at Prince Albert last fall. R. G. Hamilton, Regina, acted for the crown.

The successful action was based on the contention funds of the Indians were used to provide medical services, purchase stock, pay the farm instructor and for other purposes for which, under the treaty, free provision by the Dominion government had been promised.

The judgment also restrains the Indian agent at Leask from farming on the reserve.

### A Television Newspaper

Placed In Operation By Radio Committee In Moscow

Called the first television newspaper, the Telechronique has been placed in operation by the Soviet Radio Committee in Moscow. It is really a talking picture film, and is televised from Moscow to be picked up by anyone having the necessary apparatus. Two radio receivers are needed, one to pick up the sound, and the other working on a different wave length, to pick up the vision. It is predicted that television illustrated newspapers will be seen in many countries within two years.

### Want Olympic Grant

Ask For Dominion Support For Expenses For 1936 Games In Germany

Executive officers of the Canadian Olympic committee waited on Finance Minister E. N. Rhodes to ask for a Dominion grant toward expenses of the 1936 games in Germany where Canada and 55 other nations will be represented. For the last games the federal treasury donated \$10,000 towards the expenses of the Canadian team. Mr. Rhodes promised to take the request under consideration.

Teacher asked our young hopeful what came in like a lion and went out like a lamb and he answered: "Father."

### Marked For Distinction

Royal Society Of Canada Honors With Fellowship 21 Men

The Royal Society of Canada recently announced election of 21 men to fellowships in its five literary and scientific sections. Two of the newly-elected fellows are French-Canadians, the rest English-speaking.

In the French literary and historical section the new fellows are Jean Charbonneau, Montreal lawyer, and Maurice Hebert, Quebec civil servant and provincial government publicist.

In the chemistry and physics section five new fellows elected, among them, Gordon Merritt Shrum, associate professor of physics at the University of British Columbia.

Two new fellows in the geological section are Dr. H. C. Gunning of the Geological Survey of Canada, Ottawa, and Ralph Leslie Rutherford, associate professor of geology at the University of Alberta.

### YOUR HANDWRITING REVEALS YOUR CHARACTER!

By LAWRENCE HIRBERT  
(Grapho-Analyst)  
(All Rights Reserved)

I have often been asked of what practical value is it to anyone to have their handwriting analyzed. We know, of course, our innermost natures, the greater will be our understanding of ourselves, qualities, characteristics, talents, and the more we know about ourself the greater our opportunity of getting on in the world, the better able we are to make friends and keep them. In other words, to be happy, popular and successful.

It is important to realize that continually frowning at life with a constant chip on your shoulders?

Are you progressing in your work?—or are you dissatisfied? Are you taking the road to success? Is your real progress in the work you are doing, yet not knowing what to do to effect a change for the better? If you are married, are you content? Is your marital and business creeling in, with mutual bickering between yourself and your wife or husband?

Do you make friends and keep them?—or are you living the life of an ascetic, reclusive, unable to enjoy the society and companionship of real friends?

Are you self-confident?—or are you diffident and bashful, restrained from realizing your potentialities of inner qualities and self-confidence?

If you go through life without knowing and understanding yourself, your faults and your virtues; your moral and spiritual weaknesses of character and disposition, you will be seriously handicapped.

Graphology helps you to know yourself, to the end that you will not be handicapped in the way to overcome the weak traits, so that you will not be handicapped in the race for happiness and success.

Graphology is merely a matter of putting your pen to paper. You have to use your brain in order to write. And because the brain is the captain of your body, everything that you do emanates first from your brain.

Graphology helps you to know the physical expression of the brain impulses. Whatever you are and what you might be if you make the fullest use of your capabilities, are expressed your graphology.

A character analysis from your handwriting will not, of itself, effect a change in you, but it will show you wherein you need to strengthen yourself, what traits you have that are not utilizing to the full. And knowledge is the forerunner to action.

### Had No Sentiment

Sentiment apparently has no place in the business philosophy of an East Boston junk peddler—even where a dead horse is concerned. Seven hours after his horse dropped dead on Bennington Street the junk peddler, whose name was withheld, returned with hammer and chisel and removed the animal's shoes. He then went his way, leaving to police the task of arranging removal of the carcass.

Since 1929 there has been a steady decline in the per capita consumption of bread in Canada. This says the statistical report of the industry for 1933 is no doubt due to two factors, viz., the lessened demand resulting from a decrease in purchasing power and the changes in the dietary habits of the people.

### POPULAR APPOINTMENT

Medical Science Advances

New Approach To Unsolved Problem  
Of Heart Trouble

A new approach to the unsolved problem of coronary thrombosis, the heart trouble that threatens those who work under high pressure, was described by scientists.

The report was made to the Federation of American Societies for Experimental Biology by Jane Sands Robb, M.D., of Syracuse College of Medicine.

Coronary thrombosis is a failure of the blood supply to one or more of the 13 muscles which operate the human heart. Dr. Robb's work is a method of identifying some of the specific heart muscles which go wrong.

It is an advance of a technique which physicians have been using for 30 years in analysis of the meaning of motions of the electric recording pencil in electrocardiograms of the heart. The machine which does this was invented by Einthoven about 1900.

These motions are noticeably different in coronary thrombosis. Dr. Robb has been able to interpret these designs on the heart chart in terms of individual heart muscles. Her work shows that each muscle when injured, as in coronary thrombosis, makes a different pattern on the electrocardiogram.

The result is a further solution of the riddle of coronary thrombosis in animals' hearts and evidence that the solution will work equally well on human hearts.

### New Principal For McGill

A. E. Morgan From Hull, England  
To Assume Duties This Fall

Arthur Eustace Morgan, M.A., principal of University College, Hull, England, has been appointed principal and vice-chancellor of McGill University to succeed the late General Sir Arthur Currie, who was succeeded by E. W. Beatty, chancellor of the institution.

The famous Montreal educational institution on the slope of Mount Royal, founded in 1821 by the late Sir James McGill, had been without a principal and vice-chancellor since Nov. 30, 1933, when Sir Arthur Currie, former commander-in-chief of the Canadian corps in France, died at Montreal after a long illness.

Announcement of the selection of Sir Arthur's successor was made following a special meeting of the university's board of governors.

Principal Morgan was educated at Trinity College, Dublin, and has occupied professional positions in the University of Bristol, University College, Exeter, and the University of Sheffield, in which university he occupied the chair of English language and literature prior to his becoming principal of University College, Hull, in 1926.

The new principal is a distinguished scholar and recognized as one of the leading authorities in the empire on the subjects of English language and literature. Mr. Morgan is in his 49th year and will, it is expected, arrive in Montreal Sept. 1.

### Makes Long Journey

The amount of branded beef sold in Canada during the month of February, 1935, was 3,274,855 pounds. In February 1931 the amount was 983,571 pounds. Send 10c in 1932, 1,549,558 pounds; in 1933, 2,869,968 pounds and in 1934, 2,778,355 pounds.

### FAMOUS AIRMAN WEDS POPULAR ACTRESS

Our picture was taken at the wedding of Mr. T. Campbell Black, who with C. W. A. Scott, won the England-to-Australia air race, and Miss Florence Desmond, the stage and screen actress, in London. Left to right: Mr. C. B. Cochran, famous producer, who gave the bride away; Mr. Campbell Black, Mrs. Black, and Sir MacPherson Robertson, the donor of the England-Australia Air Trophy and prizes.

### SUNDAY SCHOOL LESSON

APRIL 28

#### THE HOLY SCRIPTURES

Golden text:  
Oh how love I thy law!  
It is my meditation all the day.  
Psalm 119:97  
Devotional Reading: Psalm 119:105-112

The Value of the Scriptures, Psalm 19:7-11. The law, the testimony, the precepts, the commandment, the ordinances of Jehovah—all of these expressions are terms for the Old Testament. The Law contains the sacred Law, which they contain.

This, the Psalmist declares, is perfect, restoring the soul; sure, making wise the simple; right, refining the unwise; teaching the ignorant; confirming the eyes; true, and righteous altogether. The fear of the Lord is clean, enduring for ever. "When among the five terms, each clearly signifies of the Word of God, the commandment, the ordinances of Jehovah—all of these expressions are terms for the Old Testament. The Law contains the sacred Law, which they contain. This, the Psalmist declares, is perfect, restoring the soul; sure, making wise the simple; right, refining the unwise; teaching the ignorant; confirming the eyes; true, and righteous altogether."

More to be desired are they than gold, yes, than much fine gold. Then with heart aglow, the Psalmist cries, "I will sing of thy power with honey and with honeycomb—the purest of the honey. Sweeter than honey itself, than honey from the comb, Moffatt's translation. Moreover by them is thy servant warned; in keeping them there is great reward."

### PUBLIC WORKS Undertakings

#### Inclusion Of Railway Equipment In Government Program

Guarantees of equipment securities of the Canadian National and Canadian Pacific Railways to the extent of \$15,000,000 is a feature of the budgeted government legislation of which notice has been given to create employment by public works and undertakings throughout Canada. Inclusion of the railway equipment works in the government's employment legislation had been forecast but it had been expected the amount would be double the figure mentioned in the resolution. Extension of the public works program launched last year, and other works undertakings are to be included in the measure.

For nearly a year the government has been considering representations from the makers of railway equipment in Canada seeking federal guarantees to cover equipment orders for their systems. Some employment had been created in the Algoma and Sydenham steel plants a year ago by the Dominion government guaranteeing the cost of rail orders until such time as the companies took delivery. The equipment orders suggested in early representations had been for around \$30,000,000.

### Cannibals Dislike Smokers

#### Lots Of Tobacco Is Protection Says French Geologist

To live long among the cannibals of the New Hebrides, the thoughtful explorer carries plenty of tobacco. Dr. Edgar de la Rue, French geologist, who arrived in New York from France, explained. "The cannibals don't like people who smoke," he explained, "because it impairs the flavor of the meat."

Examining volcanoes is an important part of Dr. de la Rue's research, and the natives don't like men who approach a volcano because it might wake the devils and cause an eruption. So for protection the doctor carries lots and lots of tobacco.

The flesh of fishes, cut in small pieces, wrapped in banana leaves and stewed, is called "laplap" and is such a great delicacy it is reserved for men only.

The New Hebridiens are strictly honest, however, never stealing anything from each other except wives. It's wife-rushing that causes war, that causes feasts, so life moves in a happy round, for all cannibals except those potted.

### Will A Yard Long

#### Probate Document Was Sold In London For \$190

The parchment probate of the will of William Harvey, the discoverer of the circulation of the blood, was sold recently in London for \$190. There was a yard or so of crimp parchment, as fresh as when it was granted in the name of Richard Cromwell, Lord Protector of the Commonwealth. The scribe must have taken weeks to print the details of Harvey's many gifts. Harvey died in 1657.

A talking clock, giving a three "pip" signal like the B.B.C. model, is the latest device of the post office for warning trunk telephone users of the length of the call.

### GARDENING

Gordon L. Smith

#### Lengthening Vegetable Season

It is good business to make several sowings of all vegetable. If this is not done, all will come up at the same time, and there will be a feast or famine. After all, with such things as radish, spinach, peas, corn or carrots, everything else, the time they are fresh, that is just mature, and taken right out of the garden. They may be quickly grown and harvested when they are the proper size. These vegetables will deteriorate whether they are left in storage or ripening in the vegetable garden or good garden, to avoid this, have the seedlings coming along continuously, a few feet of space and the balance still later. With some things like peas which must be put in early as they make their growth very cool weather, but two sowings can be made, one at the earliest possible moment, and the other ten days later, but by using early, medium and late varieties the season can be extended up to six weeks.

#### These Flowers Will Grow

It is not any more difficult to grow beautiful flowers than a few of common vegetables. Of course there are certain things like gorgous roses, delately shaded Iris and tender statice Lillies which certainly will not stand on neglect, but there are also a dozen or more and a few herbaceous perennials, which require practically no skill and the minimum care. For instance, for edging walks or borders, it comes in several sizes up to six or eight inches in height. It will bloom all season and will grow almost anywhere if the dead flowers are sheared off with sharp shears. Portulaca is another which one can plant and forget. It likes sunny location and does not want much moisture. It will bloom all summer. Calendula or pot Marigold is a little larger. It thrives almost anywhere, though it should not have too much shade. After thinning no more attention is required. Tagetes and Coreopsis are another flower that should not be overlooked by the gardener who has little time to devote to his hobby and also the California Poppy, Cosmos and annual Sweet William. This selection will give plenty of bloom and a fair range in color and height. In rough and ready perennials, there are Evening Primroses, practically any of the Daisies, Peonies, Lupine and Oriental Poppies.

### International Relations

#### Not Studied Sufficiently By British Commonwealth Of Nations

C. T. de Water, high commissioner in London for South Africa, said he believed that the foreign policies of the nations of the British Commonwealth had not been studied sufficiently by Britain or by the countries of the empire as a group.

Addressing delegates to the imperial press conference, he said: "We have not studied the problem of our relations with the outside world sufficiently closely. The world should be inoculated with the germ of peace rather than overcome as at present with the tragedy of war."

Mr. de Water urged that the press could perform invaluable service to the world in this direction if it was organized to mould public opinion.

Cecil Harmsworth, brother of Viscount Rothermere, who presided at a banquet tendered the delegates, said during their visit to South Africa they attended "three race meetings, six garden parties, 16 receptions, eight banquets and 20 luncheons—which occasioned misgivings as to whether they would enjoy any further hospitality."

Major J. J. Astor, chairman of the Times, described the tour as "an excursion into wonderland." He said the delegates returned with a greater confidence than ever in the flexibility and durability of the structure of the empire.

### Have Many Clients

#### "Anti-Suicide Service" In Berlin Is Kept Busy

Berlin's "Anti-Suicide Service," with headquarters in a quiet street back of the police headquarters, is reported to be busy. Clients are received by a kindly old man and woman who do not ask the names of their visitors. The aged couple give visitors advice and try to persuade them that life is worth living. They ask for nothing in return. Among those who take advantage of the "service" and most of whom leave the little house with renewed hope are people who have just left prison and dare not return to their families, wives who have lost their trust in their husbands' fidelity, students who have failed in their examinations and, of course, young lovers.

## TO BE SURE YOU GET Fast Relief

DOES NOT HARM  
THE HEART

An Aspirin tablet starts dissolving as soon as it touches moisture. That means that Aspirin starts "taking hold" . . . eases even a bad headache, neuritis or rheumatic pain almost instantly. And Aspirin is safe. Doctors prescribe it. For Aspirin does not harm the heart.

Be sure to look for the name Bayer in the form of a cross on every Aspirin tablet. Aspirin is made in Canada and all druggists have it.

## THE TENDERFOOT

By  
**GEORGE B. RODNEY**  
Author of "The Coronado Trail",  
"The Canyon Trail", Etc.

CHAPTER XVI.—Continued

Peyotl gagged at him.

"Oh, hell, man! There's no use skirmishin' with us. We found the bandanna you dropped when you stuck the pistol in old man Carr's pocket. Come across."

"I got the pistol from Mister Dustin's desk," said Peyotl. "What now?"

"You come with us," said Jameson shortly.

CHAPTER XVII.

Sheriff Gacy sprang to his feet as Jameson's car stopped outside his office. He had just taken old Carr to a bedroom and seen him tucked away for the night under a dose of Bromide. He ran down the steps and almost jerked Jameson from the wheel. Then he saw Peyotl huddled in the back seat.

"What you got, Evan?" he demanded. "This is as bad as mess as I ever saw. Old Joe's quietly crazy. He swears he didn't tell me about that shootin' because he can't."

"Is he drinkin' again?"

"He is not but I gave him some dope. Anybody who can throw some light on this b'lt don't do a favor."

"That's what I brought Stone and this man for. Take him inside, Jim."

Gacy drew Peyotl forth and gave one indignant sniff at him.

"You smell like somethin' the dog buried," he growled. "Where'd you git that stuff from? . . ." Peyotl crouched and gibbered. "I been pinchin' the people who use that for three years' now; you got the nerve to come right to my office skinnin' of' it. Come inside."

Inside the little office, Gacy flung Peyotl into a chair and turned to Stone.

"Shoot," he said tersely. "And for God's sake try to git on the target the first shot."

Without a word, Stone laid on the desk the bandanna neckerchief; the Derringer pistol, the pieces of cigarettes and the entire one that he had taken from Dustin. Then:

"I reconstruct the affair this way," he said. "Here's what I can swear to . . ." He told them only what he actually knew . . . That he had taken those peyotl cigarettes from Dustin's pocket. Then he swung on Peyotl, who sat staring dumbly at him.

"Where did you get this pistol?" he asked shortly. "We know you shot Keene. The smell of the peyotl on the neckerchief gives you away. Where'd you get this pistol from?"

"Unless you want to hang, you'd better talk," said Gacy.

Still Peyotl stared at them. Finally he muttered dubiously:

"I took the pistol from Mist' Sam's desk . . ."  
"Whose desk?"  
"He means Dustin," said Jameson quickly. "How did you put the gun in Mr. Carr's pocket? Better tell all you know . . ."

"Easy enough," said Peyotl. "I slipped in through the back door the minute the light went out. I shot the gun an' stuck it in Mr. Carr's coat. Then I got out before the light came on again."

"Why did you want to shoot a man you'd never seen?" asked Stone. "A man you didn't even know. Why?"

"I know who he was," said Peyotl. "Mist' Sam told me. He was a man who come out here to . . . to . . . His name's Kane," he said. "Keene," said Stone sharply. "Not Kane but Keene . . ."

"Same thing," said Peyotl obstinately. "Mist' Sam told me so."

"I see . . ." Stone leaped to his feet with an oath. "This poor fool was played on by Dustin. Dustin bids Carr's note for half the Hour-glass. He wanted the other half that Keene owns. He played on this poor fool . . . When he jammed the rag and gun in Carr's pocket . . . Did Dustin tell you to shoot this man?" He wheeled on the shrinking man.

"No, sir. He didn't know I had the gun . . ."

Gacy, whose face was blood-red with astonishment, stared from man to man.

"Why would Sam Dustin be mixed up in a thing like this?" he asked.

"I'll tell you . . ." Stone repeated about the note. He told about his fight with Dustin at Soda Springs. "There's another reason why he wants the Hour-glass, too," he said. "I'll show you. I've got it in the car."

He almost leaped down the steps to the car and was back instantly with a little canvas sack that he emptied on the desk.

"Gold ore," he said. "From a vein that Kane found on the lands of the Hour-glass. Look at this piece . . ."

His hand lit on that brown-stained piece that he had picked up by the old camp-fire. The next moment Peyotl gave a half-scream and slumped into a heap over the desk.

"Not that!" he shrieked. "For Christ's sake not that! I didn't go to do it . . . My God . . ."

And he gibbered and moaned till they thought he had lost what little mind he had.

"There's a lot behind this that we haven't uncovered," said Stone. "Peyotl . . ." His tone rang out sharply. "Where's old man Kane?"

"I . . . I . . ."

"I told you what Buxton said," said Jameson. "That's blood on that stone . . ."

". . . I didn't go to do it," quavered Peyotl. The sound of his own voice scared him. "Mist' Sam said you'd find it out . . . Oh God! He knows I never meant it . . ."

Stone shook his head at the others who half rose from their seats.

"You smell like somethin' the dog buried," he growled. "Where'd you git that stuff from? . . ." Peyotl crouched and gibbered. "I been pinchin' the people who use that for three years' now; you got the nerve to come right to my office skinnin' of' it. Come inside."

Gacy drew Peyotl forth and gave one indignant sniff at him.

"You smell like somethin' the dog buried," he growled. "Where'd you git that stuff from? . . ." Peyotl crouched and gibbered. "I been pinchin' the people who use that for three years' now; you got the nerve to come right to my office skinnin' of' it. Come inside."

Inside the little office, Gacy flung Peyotl into a chair and turned to Stone.

"Shoot," he said tersely. "And for God's sake try to git on the target the first shot."

Without a word, Stone laid on the desk the bandanna neckerchief; the Derringer pistol, the pieces of cigarettes and the entire one that he had taken from Dustin. Then:

"I reconstruct the affair this way," he said. "Here's what I can swear to . . ." He told them only what he actually knew . . . That he had taken those peyotl cigarettes from Dustin's pocket. Then he swung on Peyotl, who sat staring dumbly at him.

"Where did you get this pistol?" he asked shortly. "We know you shot Keene. The smell of the peyotl on the neckerchief gives you away. Where'd you get this pistol from?"

"Unless you want to hang, you'd better talk," said Gacy.

Still Peyotl stared at them. Finally he muttered dubiously:

"For the murder of Gerald Keene," quoth Jameson.

Stone laughed and Gacy stared at his heartlessness.

"I got Epps to give out the false news of his death," he said. "It's not dead and he isn't going to die for some time, I hope. Just want to see what Dustin's gamblin' be when he sees Keene was killed by Carr."

"What do you reckon? I'll happen . . . You'll be gone three or four days. You can't keep a dead man

## Why at 40 You Think You're "GROWING OLD"

*It's Frequently Just an Idea,  
Not "Old Age." And According  
to Science, May be Something  
else. See the Following Article.*

*A Touch Of Acid Stomach*

At about 40, many people think they're "growing old." They're tired a lot. Have headaches. Stomach upsets. Dizziness. Nausea.

Well, scientists say the cause, in a great many cases, is a change in the condition of the stomach. The thing to do is simply to *neutralize* the excess stomach acidity.

When you have one of these acid stomach attacks, all you do is take Phillips' Milk of Magnesia after meals and before going to bed.

Try this. You'll feel like another person. Take a glassful of the familiar liquid "PHILLIPS'" or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

Also in Tablet Form:

Phillips' Milk of Magnesia Tablets. 100 tablets \$1.00. 250 tablets \$1.50. 500 tablets \$2.00. 1000 tablets \$3.00. 1500 tablets \$4.00. 2000 tablets \$5.00. 2500 tablets \$6.00. 3000 tablets \$7.00. ## Personal and Local

Miss Muriel Naylor spent Sunday, April 21, at her home here.

Wm. Bell and Margaret were Calgary visitors Easter week.

Elido Salvador spent the Easter holidays at the home of his parents.

Miss Marie Olson of Midnapore is visiting her sister, Mrs. L. Griffiths.

Miss Susan Wilson spent the holidays at her home near Maycroft.

Miss Jean Pattinson was a Calgary visitor for a few days during the Easter holidays.

The Misses Belle Godfrey and Audrey Dunlop were home from Calgary to spend Easter holidays.

Mr. and Mrs. S. Howarth and son John accompanied by Mrs. S. Brocklehurst of Calgary went to Monarch on Good Friday.

Alf Hoyle, of Calgary, agent for Cunard-White Star steamships, was in town on Thursday last.

Miss Edna Fairhurst spent the Easter holidays at Edmonton the guest of her sister, Miss Hilda Fairhurst.

Mrs. A. Henderson of Lethbridge was the guest of her mother, Mrs. Wm. Pryde, last week.

Several pigeon fanciers from Kimberley were in town over the weekend returning home with twenty-one pigeons from local lofts.

Mr. and Mrs. R. Donaldson and son returned to Lethbridge Sunday, April 20, after visiting with Mrs. Donaldson's parents, Mr. and Mrs. A. Dewar.

Mr. and Mrs. Frank Celli were in town from Creston on Thursday last, taking delivery of a new Buick car from Sentinel Motors. They were accompanied by Mrs. Davis of Creston.

Eddie Wares of Calgary, well known hockey player, was in town during the early part of the week. Wares will be remembered as the athlete who represented Alberta in the delegation of school boy athletes who represented Canada at Australia and New Zealand last year. He holds the Australian school boys shot-put record. The local hockey executive are negotiating for his services next winter.

The hockey club and a number of friends held a surprise farewell party in honor of Mr. and Mrs. J. A. McLeod on Sunday evening, April 14. The evening was spent in playing whist and dancing. Mr. McLeod was presented with a sweater in the Canadian hockey colors by the hockey club and Mrs. McLeod received a bouquet of cut flowers.

Splendid support was given the Victoria Rebekah Lodge whist drive and dance on Saturday evening when eighteen tables were in play. Prize winners were; Ladies, Blanche Higginbotham and Mrs. J. Richards. Gents, Hugh Dunlop, Jr., and Mildred Higginbotham. Traveling prize was won by Mrs. Wm. Hogan. The spot prize was won by Mrs. Clegg and Hugh Dunlop, sr. The Rebekahs thank all merchants and business men who donated prizes. Proceeds from the whist drive and dance were turned over to the Jubilee Cancer Fund.

Calgary visitors on Easter Monday to witness the Boy Scout and Girl Guide Jamboree were Mrs. A. Brown, Mrs. Joe Emmerson, Mrs. F. Antrobus, Mrs. W. H. Garner, Mrs. C. F. Dunlop, Mrs. A. S. Partington, Mrs. Geo. Brown, Mrs. W. Frederick, Miss Gwen Brown.

Miss O. Aschacker, Mrs. Marconi, Miss K. Marconi, Mrs. E. Ash, R. Lowe, J. Kerr, Miss E. Harpam and Mrs. I. Hayson of Bellevue, Vincent Janostak.
